Speaker With LED Screen

Sound Parameters

BT Speaker with Screen

BT Version: Bt 5.4

Rated Input: 5V/800mA

Bluetooth Transmission

Distance: 15 meters

Speaker Power: 4.5W

Package Size: 80x59x41.5mm

Battery Capacity: 1200mAh

Charging Port: USB Type-C

Bt Pairing

Press and hold the "O" button for 3 seconds to turn on the device. You will hear a power-on notification.

Enable BT on your phone, search for devices, and select "DK08".

You will hear a connection success notification, allowing you to start playing music.

Screen Settings Adjust the brightness level of the screen. Higher levels mean brighter displays.

Always-On Display Function: When enabled, the screen will always stay on, displaying a clock or relevant information.

Active Screen Timer: Set the active screen duration (1/3/5/10/30 minutes or disable this option).

Ringtone Volume Adjustment: Users can adjust the volume of ringtone sounds (alarm sound, countdown, incoming calls, notification tones).

In silent mode, no notification sounds will be played.

Language Settings: Users can set the current display language on the device.

Factory Reset: Users can reset the device to factory settings, clearing all current configurations.

Restart: The device will restart.

The device will shut down (recommended if not used for a long time).

Users can use browsers or apps like WeChat to scan the QR code and visit the official site to download the Joy Audio app.

Open the Joy Audio app and scan this QR code to connect the device.

Users can view current device information, such as device name, model, Bt address, software version, etc.
