

5 IN 1

Hot Air Styler

Instructions for use

Please read the following instructions carefully to allow you to enjoy your quality product.

SAFETY PRECAUTIONS

1. Before first plugging the unit into your outlet, check that voltage indicated on the rating label corresponds to the voltage of your home.

2. If the power cord is damaged, it must be replaced by the manufacturer or its service agent or a similarly qualified person in order to avoid a hazard.

3. When the hairdryer is used in a bathroom, unplug it after use since the proximity of water presents a hazard even when the hairdryer is switched off.

4. For additional protection the installation of a residual current device (RCD) with a rated residual operating current not exceeding 30 mA is advisable in the electrical circuit supplying the bathroom. Ask your installer for advice.

5.  WARNING-DO not use this appliance near bathtubs, showers, basins or other vessels containing water.

6. Do not use the hair dryer for any other purposes than those described in this instruction manual.

7. This appliance can be used by children aged 8 years and above and persons with reduced physical, sensory, or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning the use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be done by children without supervision.

8. Do not use outdoors.

9. Always unplug the hair dryer from the power supply when not in use and before cleaning.

10. To protect against the risk of electric shock, do not immerse the appliance in water or in any other liquids.

11. Do not spray aerosol products when the hair dryer is operation.

12. Do not leave the hair dryer switched on when you do not use it.

13. Do not use other attachments than which supplied.

14. The air inlet and outlet openings should never be obstructed to prevent from getting too hot.

15. Keep your hair away from the immediate vicinity of inlet opening to prevent from being drawn in.

16. Store the appliance in a cool, dry place. Do not use it when there is water in your hands.
